المدة: 2 ساعات

اختبار في مادة: اللغة الحية

Part one: Reading

A. Comprehension

(7pts)

Read the text carefully then do the activities

The world progress is largely due to inventions. Whenever a new method, machine, or gadget is invented, it helps human kind to live a little easier or longer. Gradually inventors add to wealth, knowledge and comfort. Inventions work with known things and known principles to make a new product or process. A discovery differs from an invention. A discovery is something found in nature which was previously unknown. A new chemical element is a discovery, but a new type of engine is an invention.

Today, inventions are being made in all fields: mechanical, chemical, and electronic. New inventions make new jobs, businesses and industries. They bring wealth to a nation and help prepare the way for still more inventions.
