

**Text:**

Name: Lotfi

Surname: Mansour

**Situation of integration:**

I'm not really a healthy eater but I try to do my best. I eat two or more pieces of fruit every day and I have some vegetables, two portions a day. I prefer lean meat like chicken and fish.

However, I sometimes go to the fast food restaurant where I order burgers or pizzas and sodas. I know they are high fat products but they are tasty and I like them.

I have to make some changes to my diet and eat less calories. So I drink a lot of milk and I usually have some yoghurt and cheese. I promise I will not buy pastries; These are often made with butter, sugar, cream and eggs.
