Re: Assistant- engineer
Dear Sir,

I would like to apply for the job of "Assistant- engineer" which was advertised in the "Evening News" of Saturday 9th December.

I am 26 years old and single. I am an Algerian post-graduate student in the department of Physics of Manchester University, where I have been studying for the last three years. Before that, I was a student in Physics and Electronics at Algiers University for three years where I graduate four years ago.

While I was studying in Algiers, I had some compulsory industrial experience every year with Algerian firms. Before coming to Manchester, I worked for 9 months, from January to September in a computer institute in Algiers, where I improved my knowledge of Electronics. Last year at Manchester I visited various Electronics firms as part of my studies. So, I think that I am suitable for the job.

I am available at your convenience for an in- person or phone interview, and I look forward to hearing from you soon.

Yours Sincerely,
Rosa Dwin
