My friend Amir dreams of being very rich man in the future and he doesn't mind studying. When I asked him about his plans for the future, he said:" If I pass my BEM exam, I will go to the secondary school and study for 3 years. Then if I succeed the Bac exam, I'll study geography because I love It. As soon as I get my diploma, I'll work as a teacher. But if I fail, I'll work with my uncle who has a big factory. When I get enough money, I'll travel around the world and visit many places. After coming back, I'll buy a nice house and a beautiful car.

My friend Amir is very ambitious young man and he has lot of things to do in his life. Me too, I have my own dreams and plans. I want to be a famous physician like Einstein because I like physics.
