

Second Term English Exam

Level :1AS

Duration :2hours

Part One:

Read the text carefully then answer the following questions

Do you want to be a better reader ? Turn off the television !A recent study found that kids younger than 10spend about two hours a day watching TV ,playing video games , or using computers .That is about the same amount of time they spend with a book ! The study which was released on Tuesday included more than 1,000 parents of kids between the ages of 4 and 10 years. Spending a lot of time on the computer , watching TV or playing video games can make it hard to get better at reading. Kids who live in homes where the TV is on “most of the time “ are less likely to be able to read by age 6.

Reading is still popular ,though .Almost 80 percent of kids under 6 are exposed to books . In fact researchers say kids spend an average of 49 minutes a day with a book . And what is the average amount of time spent in front of the TV or computer ? about 2 hours and 22 minutes !

Victoria Rideout , a researcher for the study , says :”Kids , who watch TV , use computers , and play video games will have an advantage in their lives .” “Media can help their learning , but there are disadvantages , too.” She adds. Dr. Henry Shapiro studies kids ‘ development and behavior .He says :” reading , playing with toys , and talking with others is much better for kids learning than watching TV” .He also says :”There is a good side of TV, computers and video games ; kids are home ,safe ,they are learning things”.

Adapted from www.timeforkids.com 31,2017

A .Text comprehension: (7pts)
