

## THIRD TERM TEST

The lives of the Inuit people of North America have changed a lot in the last 30 years

First, their name :people used to call them Eskimos, but now they are called Inuits, which means ' the people'.

They used to live in igloos in the winter, but today many of them live in houses in small towns.they used to hunt seals-they ate the meat and made clothes from the fur.

85-year-old Inuit, Mariana tagalik told us a little about her early life.

"Our winter igloos were very warm ; we used to cook inside so sometimes it got too hot.When I was a child I used to take off most of my clothes when I was in our igloo.To move over the snow, we used to put special snowshoes on our feet, but today many Inuits drive snowmobiles .

Inuit children never used to go to school-they learnt everything from their parents but now, like all North Americans, they spend about 10 years of school education.

Life is not as hard as it used to be, but many of the older Inuits hate town life and want to go back to the old days.

(Taken from : Essential Grammar In Use-CUP)
