

TEXT :

Social media are websites and applications that allow people to communicate and share information on the internet using a computer or mobile – phone . Famous sites include Facebook , Twitter , You Tube , Instagram and Whats App .

A social network service can connect people with same interests , friends and members of family . Most social networking sites let you create a profile page with information about yourself .Users can share information , pictures , upload and download videos . They can also chat online . On the one hand , social media help users to connect to other people all over the world and share information in real time . In addition , it's useful for students and teachers in the education field . On the other hand , social media may lead to addiction , cyber bullying , sleep disorder , personal information hacking and health issues such as obesity and depression which are the most frequent .

- Adapted from internet –
