Test of English – 3rd term N°2

Class :.....

Name :

...../20

Part One: A-Reading Comprehension: 7 pts**Charity**

Charity is a generous feeling towards people in need. The term “charity” also refers to an organization which provides help to the needy. The oldest charity organization in Algeria is “the Red Crescent”. In this organization young people have always played an active role as well as in other charities like “Ness El Khir”, “El Qoloub Arrahima”...and so on.

The young Algerian citizens are getting more and more involved in charity actions; after natural disasters, during the holy month of Ramadan and throughout the year. This commitment towards their community makes them become engaged citizens capable to understand people’s sufferings. They make their best to solve community problems like poverty, violence, lack of school transport in some areas...etc

In other countries, youth charities are very active too; “The British charity Centrepont” helps the homeless young people all over the world to succeed in their life. Some others organize concerts and exhibitions to help the poor, the orphans and the handicapped.

All this goes to show the importance of national solidarity and the role of youth charity in promoting values and citizenship.

Read the text and do the following activities

Activity One: Read the text and write true, false or doesn't say
