<u>SECOND TERM ENGLISH TEST</u>		

Part One: Reading (15 points)
A/ Comprehension (07 points)

Read the text carefully then do the following activities:

When someone or many people scare, abuse or dominate other person, it is called bullying. **This** can happen in school, office, street or at home. Bullying is very common for children in schools. Bullying can be verbal in which children make fun of others, call them by bad names, spread rumours about them. It can be physical in which they hit others or destroy their things. Harassment can also happen on phone or computer when someone uses dirty language or send bad pictures or messages.

There are many reasons which lead to bullying. Sometimes children who bully are jealous of others. **They** cannot see anyone doing better than them and so they start bullying others. Some bully because they were bullied by someone else earlier. Others bully because they are not happy with themselves. They may have some physical or mental problem and they try to take out their anger by bullying others. Bullying affects students and people badly and many times it also affects their health. One loses confidence when one is bullied. The person starts being alone and stops talking to others. It affects his studies and his health. Some children start suffering from depression and they can also commit suicide.

Bullying is very harmful and there are many ways to prevent it. Parents and teachers should always try to be friendly with children. This makes them comfortable and they start sharing their feelings. They should also talk to the child who bullies others and know the reason.

Adapted from <https://englishsummary.com/short-essay-on-bullying-in-english-for-students/>
