

Call for Parents' Duties

If you believe that children are our future, you have the ability to educate them to change a dishonest society. To teach children the values they need to be careful young leaders, you have to help them develop awareness and the ability to think outside the box.

Teach your child responsibility. If he has made a mistake, he needs to learn to admit that he did something wrong, and to apologize for it. Teach your child that cheating is wrong and inexcusable under any circumstances. Tell your child that being honest is the only way to succeed.

Make sure your child develops an internal moral code. Do not just make him follow rules because that is the best way to avoid trouble. Your child should be given moral values to be ready to defeat negative behaviour and illegal acts to build a society based on justice, morality, honesty and loyalty.
