Hey [Friend's name], I was so sorry to hear you're battling a cold with a fever. Rest is key, so stay in bed and get plenty of sleep. Drink fluids like water, broth, or tea to stay hydrated. Take over-the-counter meds to manage your temperature and wear loose clothes to stay comfy. If you're shivering, a light blanket will help. Don't hesitate to ask for anything you need, from groceries to movies to a virtual chat. Sending you tons of positive vibes for a speedy recovery. Get well soon!
